SAP Labs India

Delegate Registration

Dilipkumar Khandelwal is the Managing Director for SAP Labs India & Executive Vice President and Head of Suite Engineering at SAP. In his role as Managing Director, Dilip leads 6000+ strong organization which researches, designs, and delivers leading-edge software applications that enhance and extend SAP® solutions, and is recognized within the SAP global organization as one of the prime contributors to innovation, quality and service. In his role as Executive Vice President of SAP SE, He leads a global team which is focused on developing and supporting applications in SAP Business Suite, Strategic Industries and the Cloud Delivery Organization. He is a member of the Global Leadership Team at SAP and is a part of several global initiatives.

Dilip has been with SAP for over 14 years spanning across different roles. He began his career as a Technology Consultant and engaged with several large customers to realize value out of their IT investments. He has benefitted from the opportunity to work around the various phases of product development comprising Quality, Partner Qualification, Consulting and post-merger activities specific to quality for companies acquired by SAP. Prior to joining SAP, Dilip was working with Grasim Industries in India. He holds a Bachelor's degree in Engineering, specializing in Electronics and Telecommunication from Bombay University. He has also completed an executive leadership program from INSEAD and holds an Executive MBA from the Indian School of Business. His passion around management also saw him through programs for senior executives at Wharton and Kellogg. Outside of work, he follows soccer and enjoys spending quality time with his family.
